

DECLARATION

Last name	First name	Date of birth	Employed in area

Pursuant to Article 2 (1) sentence 3 *WissZeitVG* and under the terms of sentences 1 and 2 of this provision, the total duration for care of one or more children under 18 years old is extended by up to two years per child. With this regulation, the legislator has included a family-related component to fixed-term contracts in the science sector. It is intended to alleviate the multiple burdens on early-career researchers caused by childcare in addition to working on their dissertation and working at the university. The extension pursuant to § 2 (1) sentence 3 is independent of leave of absence or reduction of working hours pursuant to § 2 (5) sentence 1 no.1 or 3.

Prerequisite for the extension is that the researcher/lecturer is caring for a child under 18 years of age – to include biological as well as adopted children. Child care will only be recognized as such if the child(ren) and the care person(s) live in a common household. Legal custody is not prerequisite.

The extended period of two years will be shortened if the care support during employment as a research assistant / lecturer (qualification phase) has not been at least two years.

I hereby declare that since _____ I care for, or that in the past in the period from _____ I cared for, the child or children listed below and that they live / were living in my household during my employment as a research associate / lecturer.

2.					
3.					

I hereby duly declare that my statements herein are true. I am aware that a willful or grossly negligent misrepresentation can lead to the termination of my employment without notice.

If the care situation changes, it is necessary that you inform us in writing. A renewed declaration must be submitted before the contract is extended (after at least one year).
